ANALYSIS

A) General Analysis and Discussion

The previous Extension of Time (EOT-5068) was approved by the City Council on 10/06/04. The site was originally approved with the subject Special Use Permit (U-0083-02), Site Development Plan Review [Z-0067-99(2)] and two other Special Use Permit applications (U-0081-02) and (U-0082-02). Since the original approval, there has been one extension of time for each of the above mentioned applications. The applicant has indicated that the proposed development is not viable until future B.L.M. dedications and off-ramps onto the beltway open. Therefore, staff is recommending approval of the subject extension of time and the related cases.

B) Previous Conditions of Approval from Extension of Time (EOT-5068) and Special Use Permit (U-0083-02)

(EOT-5068)

1. This Extension of Time will expire on September 18, 2006 unless another Extension of Time is approved by the City Council.
2. Conformance to the Conditions of Approval for Special Use Permit (U-0083-02) and all other subsequent site related actions as required by the Planning and Development Department and Department of Public Works.

(U-0083-02)

1. Approval of this Special Use Permit does not constitute approval of a liquor license.
2. This business shall operate in conformance to Chapter 6.50 of the City of Las Vegas Municipal Code.
3. Conformance to the Conditions of Approval for Site Development Plan Review [Z-0067-99(2)].
4. If this Special Use Permit is not exercised within two years after the approval, this Special Use Permit shall be void unless an Extension of Time has been granted.

FINDINGS

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **“The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.”**

Staff finds this tavern use meets the minimum distance separation requirements of Section 19A.04.050 of the City of Las Vegas Zoning Code, which requires a tavern to be a minimum of 1,500 feet from any church, synagogue, school, child care facility licensed for more than twelve children or City park, or another tavern as measured from property line to property line.

2. **“The subject site is physically suitable for the type and intensity of land use proposed.”**

Staff finds no evidence of a physical constraint to location of the proposed tavern use on the subject site.

3. **“Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.”**

Staff finds the proposed tavern use will be accessed from planned roads to be built to City standards for primary and secondary streets, and will thereby not negatively impact adjacent roadways or residential neighborhood traffic.

4. **“Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.”**

Staff finds the proposed tavern use will be subject to regular City and County inspections for licensing and will therefore not compromise the public health, safety, and welfare.
